Quality Assurance Engineer

QA Automation Engineer with 8+ years of experience in mobile (**Appium**), web (**Selenium** WebDriver), and API testing (PostMan) across Telecom, Retail, Healthcare, and Media domains. Experienced in building and maintaining automation frameworks, integrating tests into CI/CD pipelines, and improving product reliability through end-to-end test strategies. Skilled in working within Agile teams, ensuring faster release cycles, and delivering stable, well-tested software. Open to relocation and available to **join immediately**.

WORK EXPERIENCE

J.M.T Alghanim & Sons Automation Test Lead

02/2024 - 08/2025
Remote (Kuwait)

- Developed scalable automation frameworks using Selenium WebDriver and Appium.
- Performed mobile test automation for Android & iOS using Appium.
- Executed web testing across multiple browsers with CI/CD integration (Jenkins).
- Maintained and enhanced hybrid and BDD frameworks for regression testing.

Aspire Systems Senior QA Engineer

04/2021 - 11/2023
Kochi, India

- Led a 3-member QA team, coordinating automation and manual test efforts.
- Designed automation suites using Java, Appium, Selenium, and Cucumber.
- Created and executed test cases, logged defects in Jira, and validated APIs using Postman.
- Participated in Agile ceremonies: daily scrums, sprint planning, and retrospectives.

BestDoc Technology QA Engineer

12/2018 - 04/2021
Kochi, India

- Built BDD Cucumber test suites; automated web and mobile applications.
- Integrated API tests into automation pipelines; managed test data and bug tracking.
- Created execution reports and participated in Agile sprints and RCA discussions.

Self-Employed Entrepreneurial

02/2017 - 08/2018
Kochi, India

- Delivered freelance Selenium-based test automation services.
- Built eCommerce websites using Magento; led SEO and digital marketing campaigns.

Genie Consultants / Mundio Mobile SEO Analyst / PPC Analyst

01/2015 - 01/2017
