Software Quality Engineer

10+ years in QA with strong expertise in mobile automation, Selenium WebDriver, and Appium. Improved test execution efficiency by 30% at Aspire Systems through scalable frameworks. Experienced in end-to-end mobile testing and CI/CD integration. Open to relocation.

WORK EXPERIENCE

J.M.T. Alghanim & Sons (STC Kuwait – Client) Automation Test Lead (Mobile & Web)

02/2024 – 09/2025
Remote

- Led end-to-end mobile automation frameworks using Appium and Playwright for Android/iOS platforms
- Designed and maintained scalable automation frameworks, improving release reliability and speed
- Implemented CI/CD pipelines (Azure DevOps, Jenkins) for continuous testing
- Defined test strategy, test plans, and coverage for mobile applications
- Partnered with developers and product teams to identify and resolve critical defects
- Improved execution time by ~40% via parallel testing and optimization

Aspire Systems Senior QA Automation Engineer

04/2021 – 11/2023
Kochi, India

- Led a QA team of 3, delivering mobile automation using Appium and Selenium
- Designed automation frameworks improving execution efficiency by 30%
- Executed end-to-end mobile testing across Android devices
- Performed API validation using Postman for integration testing
- Collaborated with Agile teams ensuring quality across releases

BestDoc Technology QA Automation Engineer

12/2018 – 04/2021
Kochi, India

- Automated mobile and web regression test suites using Selenium and Appium
- Conducted functional, integration, and regression testing for healthcare apps
- Integrated API validation into automation workflows
- Managed defect lifecycle using Jira and performed root cause analysis
- Ensured quality compliance with defined test processes

Self-Employed Automation Consultant (Freelance)

02/2017 – 08/2018
Kochi, India

- Delivered mobile and web automation solutions using Selenium
- Improved client test efficiency and reduced manual testing effort
- Built test scripts for regression and functional validation

Mundio Mobile PPC Analyst

12/2015 – 01/2017
Chennai, India

- Performed mobile and web testing, including cross-browser validation
- Automated UI test cases using Selenium
- Improved application stability through regression testing
